SECTION D | SOLUTION VALIDATION

Assessing the proposed platform concept

The following section introduces the proposed platform concept. Please read the description below before responding.

Platform Concept Overview

We are developing an AI-powered self-service consultation platform dedicated to supporting Chinese AI enterprises in their global expansion and ESG compliance journeys. Through natural-language dialogue, users can obtain real-time, personalised strategic guidance on international market entry and ESG regulations. The platform also features a curated case library of Chinese AI firms' globalisation and ESG best practices, and delivers up-to-date policy intelligence on global ESG standards and overseas AI market trends.

Key features include: (1) AI-powered Q&A for instant, actionable consultation; (2) curated real-world case library; (3) personalised strategic suggestions tailored to AI enterprise scenarios; and (4) real-time regulatory and market intelligence feeds.

D1. Based on the concept described above, how appealing do you find this platform overall?

1	2	3	4	5
☐ Not at all appealing	☐ Slightly appealing	☐ Moderately appealing	☐ Very appealing	☐ Extremely appealing

D2. How likely are you to use this platform if it were available?

1	2	3	4	5
☐ Very unlikely	☐ Unlikely	☐ Neutral	☐ Likely	☐ Very likely

D3. Which platform features do you consider most valuable? (Rank your TOP 3 by

writing 1, 2, 3 in the boxes provided)

- ☐ Real-time AI-powered Q&A consultation on globalisation and ESG queries
- ☐ Curated library of real-world globalisation and ESG case studies from Chinese AI firms
- ☐ Personalised strategic recommendations tailored to the user's specific business context
- ☐ Up-to-date international ESG regulatory intelligence and overseas AI market trend reports
- ☐ Comparison tools for evaluating different market entry strategies or ESG frameworks
- ☐ Downloadable reports and actionable decision-support documents

D4. How important is it that the platform provides guidance specifically tailored to Chinese AI enterprises (as opposed to generic business consulting)?

1	2	3	4	5
☐ Not important	☐ Slightly important	☐ Moderately important	☐ Very important	☐ Critically important

D5. Which of the following interaction modes would you prefer for obtaining consultation on this platform? (Select ALL that apply)

☐ Conversational AI chat (natural language Q&A)
☐ Structured question templates / guided workflows
☐ Browsing curated case study library
☐ Automated regulatory alerts and updates
☐ Live expert consultation (hybrid model)
☐ Downloadable strategic report generation
☐ Other: _____

D6. What is the maximum monthly subscription fee you would consider reasonable for access to this platform?

☐ Under ¥500 RMB / month
☐ ¥500 – ¥1,000 RMB / month
☐ ¥1,000 – ¥3,000 RMB / month
☐ ¥3,000 – ¥5,000 RMB / month
☐ Over ¥5,000 RMB / month
☐ I would only use a free version
☐ I would prefer a pay-per-query model

D7. What would be your primary concern about relying on an AI-powered platform for globalisation and ESG consultation? (Select up to TWO)

☐ Accuracy and reliability of AI-generated advice
☐ Lack of nuanced human judgement for complex decisions
☐ Data privacy and information security
☐ Insufficient depth compared to human consultants

☐ Concerns about AI keeping up with real-time regulatory changes

☐ Lack of accountability if advice leads to poor outcomes

☐ Organisational resistance to adopting AI tools

☐ No significant concerns

☐ Other: _____

SECTION E | USABILITY & PLATFORM DESIGN PREFERENCES

User experience and interface expectations

SECTION G | OPEN-ENDED FEEDBACK

Qualitative insights and suggestions

Your written responses in this section are particularly valuable for our research. Please provide as much detail as you are comfortable sharing.

G1. Briefly describe the most challenging situation you have faced when seeking professional guidance on globalisation strategy or ESG compliance. What made it difficult, and how was it ultimately resolved (if at all)?

(Please write 3–5 sentences if possible)

G2. What single improvement would most increase the usefulness of an AI-powered consultation platform for your globalisation or ESG needs?

(Please write 2–3 sentences if possible)

G3. Are there any specific globalisation markets, ESG frameworks, or regulatory environments that you believe this platform must cover to be genuinely useful?

(Examples: EU AI Act, SEC climate disclosure rules, Singapore MAS ESG taxonomy, US market entry, Southeast Asian regulatory regimes, etc.)

G4. What would prevent you from adopting this platform in a real-world professional or academic context, even if the product quality were high?

G5. Do you have any additional comments, suggestions, or concerns regarding the proposed platform?

THANK YOU FOR YOUR PARTICIPATION

Your responses are invaluable in helping us design a platform that genuinely addresses the needs of Chinese AI enterprises and academic stakeholders. All data will be treated in strict confidence and used solely for academic purposes within ENT208TC.
